Introduction

We are pleased to present the *Diocese of Baton Rouge Catholic Church Records: Baptisms 1901-1905*. These records reflect our rich Catholic heritage and enable those persons seeking family history to access information given in the sacramental records of their ancestors. This is a new series for the Archives Department. Upon completion of our 22-volume set *Diocese of Baton Rouge Catholic Church Records 1707-1900*, we realized that if we wanted to continue publishing into our 20th Century records, we would need to change how we presented that information. With the population explosion that occurred at the turn of the century in Southeast Louisiana, it was no longer possible to publish a book with all the sacraments (baptisms, marriages, and burials) in the same format. The sheer volume would only allow us to release a few months of information at a time. The decision was made to choose one sacrament and include as many years as possible. This book covers baptisms from the years 1901-1905 and includes all records from churches that existed in the territory that would become the Diocese of Baton Rouge.

Much has changed in the publishing world in the last few years. We are excited to be able to offer this book electronically for the first time. Having this publication in electronic format makes it fully word searchable, an added bonus for researchers. For those who still enjoy a "traditional" book that option is still available with a print-on-demand feature through the publisher.

Italian and Sicilian surnames continue to increase, as reflected by the growth of the immigrant population. The priests during this time are predominantly French-speaking and, unfortunately, have a difficult time with the correct spelling of these foreign sounding surnames. Persons researching these names should carefully check for all possible spelling variations. All entries are recorded as they were entered in the registers by the priest.

If the original entry included any notation, a reference to that has been included in this book. A common notation seen during this time is a marriage notation, indicated by mn. This is an addition to the entry written years later when that individual marries indicating who they married, as well as when and where the ceremony took place. The notation itself has not been published since it is a reference to another sacrament at a later date.

Two record books found in this volume reflect reconstructed records. Fire was responsible for the loss of registers from two different churches. St. Joseph in Paulina lost all records in the fire of 1920 and has reconstructed baptismal records only. St. John the Baptist in Brusly also reconstructed their baptism book which was lost to a fire in 1907.

There may be entries in this book that have earlier dates than the scope of this book. When an omitted entry is discovered, it is published in the next volume. This has been a practice of the Archives Department throughout the years, and most of the other volumes have an occasional entry outside the included dates of that volume.

As always, the publication of this book represents a tremendous effort from a very dedicated group of volunteers who deserve recognition. These volunteers are Billie Boltin, Dornia Broussard, Roland Gravois, Mona Hull, Chip Landry, Judy McGuire, and Renée Richard. Without such wonderful, hardworking volunteers, this volume would not be possible. Their work includes locating all records for the period of the publication, translating the records into English, reading some very difficult handwriting, entering the data in the computer, double-checking each entry for accuracy, and correcting them in the computer.

We would like to express our gratitude to our Bishop, Most Rev. Robert W. Muench, and our Chancellor, Rev. Tom Ranzino, for their support of this project and the Archives Department.
