THE COMMODORES

For three decades, the **Commodores** have remained a force in the music industry.

In 1968 the group began recording at the Tuskegee Institute. After being discovered by Berry Gordy, the Commodores went on to sell over 50 million records for Motown. With hits like "Brick House," "Three Times A Lady," "Still," and "Sail On," the Commodores became proven artists. They proved it then. They proved it in 1986 with "Night Shift," receiving Grammy recognition, and now they are ready to prove it again.
