Happy Easter!

One theme that is so central to the celebration of Easter is the **newness of life** in Christ. I come from Malawi which is in the Southern Hemisphere where we have a sub-tropical climate which is relatively dry and strongly seasonal. The warm-wet season stretches from November to this month of April. The weather and temperatures are different from here. Here in the Northern Hemisphere, the world now seems to be coming alive. Being here for two winters, I can see the newness of life that was hidden in the coldness and darkness of winter and this life is now ready to appear through nature. It is like nature is moving from death to resurrection. Probably as we celebrate Easter, we can understand it in this way that the death of Jesus was like a dormant stage of things, but his resurrection has brought about the transformation that we are all celebrating in this period of Easter. Indeed, if we die with Christ, we will appear with him in glory. We need to die to all wickedness in our lives and set our hearts on higher things like love, sincerity and truth.

The Paschal Triduum is such a great moment for us Christians. It is within the celebrations of the Paschal Triduum that we experience the extravagance of God's love and sacrifice for all human beings through his son Jesus Christ. On Holy Thursday our focus is on the institution of the Holy Eucharist which is the source and summit of our Christian life. On this day, Jesus also washed the feet of his disciples to show us the way to be charitable to others. Good Friday is when Our Lord died on the Cross. It is called "**Good**" Friday because we have been saved from sin and damnation through the sacrifice and death of God's only Son. On Good Friday, our focus is on the cross of Jesus Christ. On Holy Saturday, we have now the most glorious, beautiful and dramatic liturgy of the church. One thing that stands out is the lighting of the fire and procession with the paschal candle representing the light of Christ rising from the tomb. Christ is risen and our song is Alleluia. Happy and blessed Easter to you all.

Fr. Christon

### Child Abuse Prevention Month

*Did you know...* Child abuse can occur in every culture and every socio-economic demographic. Peer reviewed research, especially that of the past 30 years, repeatedly shows this to be true. This same research indicates that the vast majority of child abuse occurs at the hands of someone known to the victim. Those who seek to do harm to children will pursue opportunities that provide access to children and may even ingratiate themselves into the home. You can protect children by respecting the safe environment protocols established at youth serving organizations. More importantly, you can implement many of these protocols in your home and be ever observant and vigilant in all public and private settings.
