- A one-time additional fee will be charged for a Mount Southington Ski Area RFID card if a participant does not already have one.
- If you are not able to attend every week, your ticket is valid for any other weekday during the season.

Your RFID card is your ticket:

- Before your first visit, your group coordinator will collect the RFID cards from Mount Southington, for each participant in the group.
- To get on a Mount Southington lift, your **RFID card must be on your person and scannable**, so remember to bring it with you for each visit.
- If the card scans and says you are not allowed on the lift, please do not argue with our staff; they cannot change anything. Instead, simply head over to guest services and they can assist you.
- If you forget your card or lose your card, go to guest services and they will issue you a new card for a \$5 fee. The old card will then be deactivated.

Equipment Rental:

- Upon arrival, if you are renting equipment head to the ski and snowboard rental building to pick up your equipment.
- You will need to show your RFID card to the staff so they can see your details and give you the proper equipment.
- As in past years, helmets are not included in group rental equipment. You may add a helmet to your purchase online each time your group visits.
- Your equipment needs to be returned to the rental building before you leave the ski area after each visit.

Ski and Snowboard Lessons:

- Ski and snowboard lessons are offered at various times. Please be on time for your lesson.
- Lessons are offered at 4pm, 5pm, 6pm, 7pm depending on which group and package you choose.
