## "UNIVERSAL" INDIANA CHOICE SCHOLARSHIP UPDATES

Yesterday, the Senate Appropriations Committee released its version of the budget. Unfortunately, the Senate's budget DID NOT include the **universal** choice language that was supported by Governor Braun and introduced by House representatives in HB 1001. We need to let the Senate know how disappointed we are that universal choice was removed from their budget. Since the start of the legislative session, legislators have heard from parents and school leaders about the need for universal choice. Dozens of parents and school leaders have testified at the Statehouse and we have heard from many of you about how badly you want to see universal choice get across the finish line. You can help by sending a personalized message, [Send Your Message Now](#) or Call your Senator! [Click on this link](#) to download a script and get contact info for your senator. **The Choice program will continue on as before with financial limits if they decide not to go with Universal, the Choice Scholarship Program is not being eliminated.**
