

Local Reuse, Recycling, and Safe Disposal Programs by Material Category

Batteries

Battery recycling opportunities have been more dynamic than other materials based on laws. Check out [Call2Recycle](#) periodically to find additional locations that recycle single-use lithium batteries, rechargeable batteries, electric bike batteries, and high energy batteries. The search feature can find participating locations by zip code.

Home Depot has collection bins at the store entrances for non-working/spent rechargeable batteries.

Lowes has collection bins at its entrances for non-working/spent rechargeable batteries (and compact fluorescent lightbulbs (CFLs)).

Staples has collection bins for rechargeable and single-use lithium batteries at participating stores at 2321 Sir Barton Way, Ste 140, and 2081 Harrodsburg Road.

uBreakiFix at 2380 Norman Lane #134 in Lexington accepts both single-use lithium and rechargeable batteries.
