Dear Friends of Life,

What an incredible year it's been, and what an phenomenal year we are going to have in 2023. Our pro-life prenatal healthcare clinic is growing to serve ever more women and families, and it is because of the generous support of our community. So many of our friends have been excited to be part of our effort, and we are so excited for our first major fundraiser to give our community the opportunity to participate and Be the One.

Since our opening in January 2022, we have served over **400 unique patients**. We have provided **367 ultrasounds**. We have had **59 babies** born through our clinic's services. **We have offered the abortion pill reversal process to 6 different women**. We have served women from **23 cities and 75 zip codes**. We are serving formerly abortion-minded patients referred to us from Right to Life of Central California and Pregnancy Care Center.

We strive at Obria to look at the entirety of a woman's needs, beyond simply her physical or reproductive health. This is why we have partnered with wonderful community organizations to provide resources for women facing material poverty, addiction, domestic violence, sex trafficking, a lack of access to health insurance, and more.

We are saving lives. We are changing lives. We are serving those in need. And we need your help to continue this work.

Almost 25% of women in south Fresno receive no prenatal care prior to delivery. More and more doctors' offices feel that they cannot receive Medi-Cal patients due to economic pressures. To serve this patient population in a caring, loving way is a difficult financial challenge. Meanwhile, last September, Planned Parenthood in Fresno received \$1,000,000 in taxpayer funding courtesy of the Fresno City Council.

We are asking you to **Be the One**.

Be the One who empowers women in the Valley to choose life.

Be the One who respects and supports women in their time of need.

Be the One who stands up for unborn babies and their mothers.

Very truly yours,

With joy,

John Gerardi
