Cremated Remains - ground	\$550.00 per cremated remains.	*must be before 3pm.

- If no Funeral Home is involved, the Sexton will intern the cremated remains for an additional fee above regular interment. \$100

NOTE: There will be an additional charge to the cremains prices regardless of the day if a backhoe is required to dig the hole. Families will be notified ASAP.

Cremation

Cremated remains may not be placed on the top of an existing interment as we require 18" of earth over all interments and this requirement would not be able to be met. Therefore, it must be pre-planned to have cremains buried on top of a full body in order to ensure the full body interment is made at the appropriate depth. All cremation interments must be in an outside burial container approved by the cemetery. The parish office must receive the dimensions of the burial container at least 72 hours before the funeral.

Two urns may be placed in one adult grave space, but only one marker is permitted. Interment charge is per remains. If more than one remains are buried the cost will reflect the number.

Accommodation fee

When cremated remains are interred as a second burial in a grave, where a full body is already interred, the parish office must be contacted before final arrangements are made with the family. Not all graves can accommodate cremated remains buried on top of the existing burial vault. An accommodation fee is charged for all second burials on the same grave, in addition to the Interment Charges. This charge is:

Cremated remains accommodation fee	\$350
