

Dear Blessed Sacrament Adorers:

Re: Safety in the Chapel

We have installed a security device in the Bread of Life Chapel. Primarily this is to be a safeguard if there is anyone alone in the chapel at night or if someone feels a sense of danger.

The following will help to explain the process:

- A) If you are alone and feel insecure or afraid you can lock yourself in the chapel.
 - a) Simply face the double doors from the inside of the chapel
 - b) Slide the bolt up on the right side door (closest to Clunan Center)
 - c) Then turn lock on the left side door (closest to Church)

If at any time you suspect trouble, call ProTech Security. Their number (274-3400) is posted above the telephone in the chapel.

An additional bonus is they will come and escort you to your car if you require.

- B) Should another adorer come and find the chapel locked—be not afraid—simply punch in the code 1-7-0-8 and turn the handle—the green light will go off and you can enter.
- C) If for some reason the Blessed Sacrament is left alone because no one has shown up, we have a solution.
 - a) Make sure the right side door (Clunan side) is latched at the top from the inside.
 - b) Go out in the hall. Punch in code 1-7-0-8 and turn the handle. The green light will go out.

1-2-3 it's easy as A-B-C.

See how much I care for you all!!!

Thanks for your devotion to the Eucharist.
