

*From the Pastor*

-The Lord be with you! Back in late August, I described our parish's debt situation and our resulting need to increase regular offertory contributions (both number of donors and overall amount), one-time gifts, and rental income via the three buildings adjacent to the chapel. Included in this week's bulletin is our annual financial report, which I will now review starting with parish revenue. The numbers you see for the proposed "2026 Budget" (Fiscal Year '26) assume no change in offertory income (including the Grand Annual) and no new rental income. It's a starting point for further planning. The projected net loss of \$32,462 plus \$69,120 in loan payments (which the Archdiocese has declined to freeze) make changes necessary. This fall, instead of a Grand Annual (which merely supplements the Offertory) we will conduct an increased offertory campaign. Combining the 2026 projections for Offertory and Grand Annual gives us a starting target of \$300,000 for the fiscal year. I would like for us to increase this by \$50,000 (a little under 17%). Thus, our goal for total 2026 Offertory (July 2025 through June 2026) becomes \$350,000. Again, this depends largely on having more regular donors to our parish and increased giving by those who are not presently giving much.

A \$50,000 increase in offertory only makes up half of our budget deficit. We're working on increasing our rental/lease income, too. Fortunately, the convent appears to be in good shape and doesn't immediately need major repairs. The vacant housing in the St. Augustine rectory needs renovation but is usable. Our current tenants are presently considering how they might expand their operations at these properties. We also remain open to proposals from other parties. Selling property is preferred only if we can't afford to maintain a building.

Our top priority continues to be paying off our loans. Debt has been devouring our savings since around 2009, when the parish school netted around \$400,000 in losses. Loan payments gave us a 2025 net loss of \$52,035 (\$16,728 minus \$68,763). Unfortunately, the Archdiocese won't let us temporarily freeze these payments while we work on increasing our income. However, thanks to a generous donor (who wants to be anonymous), we've just eliminated the smaller of our two loans! That will save us \$3,000 per month in loan payments. To pay off our remaining loan without deepening our 2026 net loss, we need to raise \$4,000 more per month (\$925 per week) for about six years (\$270,000). \$210,000 will pay it off all at once, freeing us from this heavy burden. That's a lot – but achievable if 100 individuals or households give an average additional gift of \$2,000 over the course of a year.

**If you are presently giving less than 5% of your total income to our parish, I ask that you please prayerfully consider increasing your contributions.** 10% is widely considered a standard for *total* charitable giving (tithing). Some can't give this much to charity; others can and do give more. Please give what you can. I'll keep you informed of our progress.

Let's move on with more good news. Our 2025 Catholic Appeal was very successful! In past years, we needed to pay upwards of \$5,000 to make up the shortfall in contributions. This year, we are receiving a rebate of around \$3,500, having raised 133% of our goal. This reduces our 2026 projected net loss. Additional increases in parish fundraising (dinners, the Christmas Fair...) can reduce it further. We are all working hard to achieve that. As in past years, I'm also returning a significant part of my clergy stipend income to the parish (Fr. Chris did this, too) and trying to keep expenses low.

Yours, with gratitude and confidence,  
Fr. Gregory
