**Oppose the Federal Concealed Carry Mandate (H.R. 38 and S.65)**

*"States have long had the power to decide who is too dangerous to carry a concealed weapon in public and where concealed firearms cannot be carried..."*

*H.R. 38 and S. 65 would create a federal mandate that would **override our state gun laws** by forcing every state to recognize every other state's concealed carry standards—including those with weak or no standards at all. This legislation would **make it easier for people with dangerous histories—like those convicted of violent crimes, domestic abusers, and stalkers—to carry a concealed and loaded gun in public in states that wouldn't otherwise let them.**"*

## Advocate for refugees seeking permanent residency

Refugees admitted to the U.S. undergo [rigorous background checks](#). However, the administration [ordered the review](#) and potential re-interview of refugees already admitted under the previous administration. The administration's [Operation PARRIS](#) continues to [arrest and detain resettled refugees in Minnesota](#) at an unprecedented and escalating rate. These re-vetting efforts subject refugee communities to trauma, uncertainty, and fear of forced return to the very situations they waited years to escape.

## **CREATION CARE:**

**Protect millions of acres of pristine National Forest habitat.**

**Postcard to:** Secretary Brooke L. Rollins

U.S. Department of Agriculture

Washington, DC 20250

**Script:** Hello, I’m \_\_\_\_\_ from [STATE] and [concerned for the future](#) of nearly 50 million acres of National Forest currently protected from logging and road building by the Roadless Rule. Rescinding this rule would endanger

cherished recreational areas, threaten [critical drinking water sources](#), increase the [risk of wildfire](#), and endanger [irreplaceable habitat](#) for countless species. I urge you to protect our natural heritage by reversing plans to repeal the Roadless Rule.

## Creation Care Corner

### ***Laudate Deum* and the Need for Systemic Change**

Pope Francis urged the world to take action to reduce the impact of climate change in his Apostolic Exhortation *Laudate Deum*. A key concern of Francis then, which is now shared by Pope Leo XIV, is that climate change is especially harmful to the poor and future generations.

As individuals we can take actions like flying and driving less, eating less meat, adjusting the thermostat, etc... and we should. But Francis noted that much of the problem is systemic. That is to say carbon pollution is baked into existing systems of electricity generation, transportation, agriculture and building construction. So, in addition to taking personal action, we must find ways to engage our government officials and encourage them to address those systemic contributors to the climate issue. We can do this by writing our congressional representatives and senators and by joining or supporting groups that do so.

As Christians we should meditate on the questions: What am I doing for Jesus? What ought I do for Jesus? Consequently, if the discipleship of Jesus Christ includes care for creation and concern for human suffering, including suffering from the results of climate change, we ought to ask: What am I doing to care for creation? What ought I do to care for creation?
