## TAKE ACTION: STOP THE "SAVE" ACT!

The SAVE (Safeguard American Voter Eligibility) Act, requires all Americans to show documentary proof of citizenship (i.e. birth certificate, passport), in person, when they register to vote for the first time and every time they update their voter registration information online. This could create new obstacles for voter access.

***"This bill would prevent millions of married women who have changed their names from registering and voting. Not to mention the roughly 170 million Americans without a passport and the 9% of the population that moved in the last year. It would ... enact recurring purges of voter rolls, end mail voting nationwide, and force voters to prove their citizenship when registering and show photo ID when voting."***

Since last year, the SAVE Act has been amended to include a mandate for states to regularly submit their voter rolls to the Department of Homeland Security.

Passed in the House on 2/11, it needs a simple majority to pass the Senate – but 60 votes to break a **filibuster!** Call your Senators at 855-999-8503 and tell them to use **every available procedural tool** to say NO to the SAVE Act.

**Tell Congress: Don't silence dissent with tear gas**

**"If tear gas is too dangerous for a battlefield, there is no justification for using it against people in our cities. I urge you to introduce and pass legislation to ban the domestic use of tear gas."**

Tear gas is a chemical weapon **BANNED in warfare** by both the Chemical Weapons Convention and Geneva Protocol. But these agreements allowed for a critical, dangerous exception: **Use by domestic law enforcement.**

**Oppose the Federal Concealed Carry Mandate (H.R. 38 and S.65)**

*States have the power to decide who is too dangerous to carry a concealed weapon in public and where concealed firearms cannot be carried... H.R. 38 and S. 65 would create a federal mandate that would **override state gun***

**laws, forcing every state to recognize every other state's concealed carry standards—including those with weak or no standards at all. This legislation would *make it easier for people with dangerous histories—like those convicted of violent crimes, domestic abusers, and stalkers—to carry a concealed and loaded gun in public in states that wouldn't otherwise let them.***

## CREATION CARE:

*"...the environment  
is God's gift to everyone."*  
— Pope Benedict XVI

**THIS WEEK'S STEWARDSHIP RECOMMENDATION:**

Lent is coming. Consider a "fast" for Creation Care... sacrificing some comfort, giving up a wasteful practice, or modifying your actions to reduce harm to the environment. Some ideas include:

- **A Meat Fast:** How about adding a meatless Monday to meatless Fridays? What about eating only chicken when you do eat meat, or sustainably caught fish?
- **An Energy Fast:** How about turning the thermostat down 2°-5°F lower than usual and putting that sweater on? Also, consider turning the water heater down to 120°F and limiting shower time to three minutes.
- **A "Stuff" Fast:** Consider buying only the bare minimum of essentials you need to reduce waste and simplify your life. And how about staying away from as much plastic as you can to further reduce waste, opting to switch to more recyclable materials?
