Pam H. was on a quest for God's answer for her perplexing personality traits and addictions. God's love, mercy and forgiveness transformed her mind and heart. Scripture memorization and practical guidelines played the primary role in this transformation decades ago. Pam believes: "God does not zap us. He leads us one step at a time as we become more like Him. It is a lifelong process of change."

There is always hope!

Please join us on May 12, at 7pm.
