The story of St. Christopher is a captivating part of Christian gospel. According to legend, Christopher's given name was Reprobis and that he once served the king of Canaan, who he believed to be "the greatest king there was". One day he saw that the king feared the devil. Upon learning this, he decided to depart from the king's service and seek out the devil. He came across one of whom declared himself as the devil and Reprobis decided to serve him. However, when he saw his new master avoid a wayside cross, he learned that the devil feared Christ. He left the devil's service and set out on a journey to find Christ.

He encountered a hermit who instructed him on the Christian faith and suggested that he might use his strength to help travelers cross a dangerous river.

One day a child arrived to be carried across the river. Reprobis took the child upon his shoulders, but as he crossed the river, the child grew heavier until Reprobis feared he would fall and that they would both drown. When he asked the child why he was so heavy, the child revealed that he was Jesus Christ and answered that he was heavy with the weight of the world's sins. Christ then baptized Reprobis in the river and gave him his Christian name which - Christopher - means "Christ-bearer."

During the 1960s, the Catholic Church reviewed and revised the Calendar of Saints, and eliminated the feast days of several saints including the celebration of St. Christopher which was on July 25th. Although Christopher does remain a saint, his day of celebration, July 25, is no longer listed on the Catholic calendar. Despite this confusion, devotion to St. Christopher continues. Travelers wear St. Christopher medals, place medallions on their dashboards, or clip them to sun visors to keep him close and to protect them.

Catechesis on the Sacrament of Anointing of the Sick

Part 1 of 2

Anointing of the Sick is “one of the seven sacraments, also known as the ‘sacrament of the dying,’ administered by a priest to a baptized person who begins to be in danger of death because of illness or old age, through prayer and the anointing of the body with the oil of the sick. The proper effects of the sacrament include a special grace of healing and comfort to the Christian who is suffering the infirmities of serious illness or old age, and the forgiving of the person’s sins” Catechism of the Catholic Church.

Often this Sacrament is misunderstood. It is to be used when:

- A baptized person begins to be in danger of death due to illness.
- A baptized person begins to be in danger of death due to old age.

A person who is to receive a surgical procedure such as colonoscopy, dental surgery, cosmetic surgery, or other medical tests does not fit the criteria of danger of death for the Anointing of the Sick. Many believe anesthesia from surgery is enough to receive Anointing of the Sick, but if there is no medical condition at the time of Anointing that brings someone to the point of danger of death, then the Sacrament of Anointing will not have its desired effect. In the case of someone who is to receive a medical procedure for a non-life threatening situation the appropriate Sacraments are Confession and Holy Communion.

For someone who has cancer, has had a heart attack, a stroke, or another condition that is currently causing them to be in danger of death please contact a priest as soon as possible for the Anointing of the Sick. It is customary that the priest administers the Sacrament of Anointing to a Catholic who is in a nursing home during his regular visits if they are in danger of death from a medical condition or come to be in danger of death from old age.

MobileHelp® allows you to summon emergency help 24 hours a day, 7 days a week by simply pressing your personal help button. Now you can participate in all your favorite activities such as gardening, taking walks, shopping and traveling all with the peace of mind of having a personal alert system with you. MobileHelp, the "on-the-go" help button, is powered by one of the nation's largest cellular networks, so there's virtually no limit to your help button's range.

No landline? No problem! While traditional alert systems require a landline, with the MobileHelp system, a landline is not necessary. Whether you are home or away from home, a simple press of your help button activates your system, providing the central station with your information and location. Our trained emergency operators will know who you are and where you are located. If you're one of the millions of people that have waited for an alert service because it didn't fit your lifestyle, or settled for a traditional system even though it only worked in the home, then we welcome you to try MobileHelp.
