

# **BRAVE HEARTS UNITE**

## **Official Theme of Veterans Helping Veterans USA**

In the shadows of the night, they fought the fight,  
Brave hearts, lost souls, searching for the light.  
With every battle scar, they carry the weight,  
But we're here to lift them up, it's never too late.

No more silence, we'll raise our voice,  
For every hero, we'll make the choice.  
Together we'll stand, united and proud,  
For the ones who served, Veterans Helping Veterans is loud!

Stand strong together, we'll pave the way,  
For the veterans in need, we won't turn away.  
With open hearts and open hands,  
We'll light the path, take a stand!

We'll rise like the dawn, shining ever bright,  
For every soldier lost, we'll be their guiding light!

Through the storm and the tears, they've walked alone,  
But we're building a home, where they can be known.  
From the ashes they rise, with courage anew,  
With a brotherhood strong, we'll see them through.

No more silence, we'll raise our voice,  
For every hero, we'll make the choice.  
Together we'll stand, united and proud,  
For the ones who served, Veterans Helping Veterans is loud!

When the night feels long, and hope is thin,  
We'll be their family, we'll let the healing begin.  
No more fighting alone, we'll walk side by side,  
With the strength of our hearts, we'll be their guide.

Let the love ignite, let compassion flow,  
With every story shared, together we'll grow.  
We honor the past, but we build the way,  
For brighter tomorrows, come what may.

Oh, brave hearts unite, it's time to stand tall,  
Together we rise, together we'll call.  
For every veteran who feels lost in the night,  
Join hands in the darkness, we'll be their light!

So here's to the warriors, the strong and the true,  
We're lifting them up, from the old to the new.  
With every beat, in every heartfelt song,  
Brave hearts united, together we belong.
