Independent Auditors' Report

The Most Reverend Oscar A. Solis:

We have audited the accompanying financial statements of The Catholic Foundation of Utah (the Foundation), which comprise the statements of financial position as of June 30, 2020 and 2019, and the related statements of activities and cash flows for the years then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with U.S. generally accepted accounting principles; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of The Catholic Foundation of Utah as of June 30, 2020 and 2019, and the changes in its net assets and its cash flows for the years then ended in accordance with U.S. generally accepted accounting principles.

Other Matter

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The supplementary information relating to Endowment and Gift Information with Donor Restrictions is presented for purposes of additional analysis and is not a required part of the financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the financial statements as a whole.

Notes to Financial Statements

June 30, 2020 and 2019

(1) Organization and Summary of Significant Accounting Policies

(a) Basis of Presentation

The accompanying financial statements include the accounts of The Catholic Foundation of Utah (the Foundation) only, and present no accounts of any other components of the Roman Catholic Bishop of Salt Lake City (the Bishop), a Corporation Sole. The Foundation is incorporated under the Utah Nonprofit Corporation and Cooperative Association Act.

(b) Donated Assets

Assets donated to the Foundation are recorded at fair value at the date of donation.

(c) Net Assets

Contributions are generally recognized as revenue at their fair value in the period received or made.

The financial statements report net assets and changes in net assets in two classes that are based upon the existence or absence of restrictions on use that are placed by its donors, as follows:

(i) Without Donor Restrictions

Net assets without donor restrictions represent resources which are not subject to donor restrictions and over which the Foundation retains control to use the funds in order to achieve the Foundation's purpose.

(ii) With Donor Restrictions

Purpose restricted

Purpose restricted net assets represent resources subject to donor-imposed restrictions. Some donor-imposed restrictions are temporary in nature, such as those that are restricted by the donor for a particular purpose and that will be met by the passage of time or other events specified by the donor. Donor restricted contributions whose restrictions are not met in the same reporting period are recorded as contributions with donor restrictions then as net assets released from restrictions when the restriction is met. Donor restricted funds may only be utilized in accordance with the purpose established by the donor of such funds.

Donor-restricted endowments

Donor-restricted endowments net assets represent donations with stipulations that they will be invested to provide a permanent source of income, with donors requiring the specific historical gift amount to be maintained in perpetuity.

(d) Cash Equivalents

Cash equivalents consist of instruments with original maturity dates to the Foundation of three months or less at the date of purchase. Cash equivalents consist of money market funds and totaled \$1,628,740 and \$1,316,118 at June 30, 2020 and 2019, respectively. The cash equivalents are Level 1 securities as described in the fair value hierarchy at Note 2, Fair Value Measurements.

Notes to Financial Statements June 30, 2020 and 2019

(e) Investments

Investments are measured at fair value in the statements of financial position using quoted market prices. Realized and unrealized gains and losses on investments are reported in the statements of activities as increases or decreases in net assets without donor restrictions unless their use is restricted by explicit donor stipulations. Realized gains and losses are determined on a specific-identification basis. Dividend income on securities owned is recorded on the ex-dividend date. Interest income is recognized on the accrual basis.

(f) Income Taxes

No provision for income taxes has been provided as the Foundation is exempt from federal income tax under provisions of Section 501(a) of the Internal Revenue Code as an organization described in Section 501(c)(3) of the Internal Revenue Code, as indicated in a determination letter to the United States Conference of Catholic Bishops from the Internal Revenue Service (IRS) dated August 21, 2019.

U.S. generally accepted accounting principles require management to evaluate tax positions taken by the Foundation and recognize a tax liability if the Foundation has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. Management has analyzed the tax positions taken by the Foundation, and has concluded that as of June 30, 2020, there were no uncertain positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements. The Foundation is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any periods in progress.

(g) Expense Allocations

The Diocesan Pastoral Administration of the Bishop (the Pastoral Administration) provides administrative and accounting services to the Foundation. The costs associated with these services are allocated to the Foundation. Certain other costs that are incurred by the Pastoral Administration on behalf of the Foundation that are specifically identifiable to the Foundation are charged to the Foundation. The amounts reimbursed by the Foundation to the Pastoral Administration for these services totaled \$108,626 and \$97,310 for the years ended June 30, 2020 and 2019, respectively and are included in the general and administrative expenses.

(h) Funds Held for Related-Entity Endowment Liabilities

A portion of the Foundation's investments result from funds held for related-entity endowments, where the Foundation invests the funds as an agent for the related entities. These transactions are accounted for as agency transactions under Accounting Standards Codification (ASC) 958, *Not-for-Profit Entities*, which requires the Foundation to recognize the receipt of the cash as liabilities to the beneficiary for the investments held on their behalf, including the return on those investments. Activities related to these agency transactions have been presented separately in the statements of activities.

Notes to Financial Statements June 30, 2020 and 2019

The financial statements for the year ended June 30, 2019 include an immaterial revision to the statement of activities to present the activities related to funds held for related-entity endowments separately as agency activities within the net assets without donor restrictions section of the statement of activities. Prior to this revision, the agency activities were included in purpose-restricted investment return, beneficiaries services expenses and net assets released from restrictions, offset by the net change in funds held for related-entity endowment liabilities. This revision resulted in a decrease from previously reported amounts of investment return, expenses and net assets released from restrictions of \$930,600, \$563,058 and \$563,058 respectively. There was no effect on the change in net assets with donor restrictions. The 2019 statement of cash flows was also revised to reflect the net realized and unrealized gains and losses on agency investments related to funds held for related-entity endowments separately as agency activities.

(i) Split-Interest Agreements

Split-interest agreements consist of charitable remainder unitrusts (CRUTs) and charitable gift annuity agreements. The Foundation records the assets received at fair market value and calculates the present value of the gift and the related liability using actuarial assumptions from the American Council on Gift Annuities and a discount rate ranging between 5% and 6%. There are no limitations imposed on charitable gift annuities by the state of Utah.

(j) Use of Estimates

Management of the Foundation has made a number of estimates and assumptions relating to the reporting of assets and liabilities and the disclosure of contingent assets and liabilities to prepare these financial statements in conformity with U.S. generally accepted accounting principles. Actual results could differ from those estimates.

(k) COVID-19

During March 2020, the World Health Organization declared the rapidly growing coronavirus outbreak to be a global pandemic. The COVID-19 pandemic has significantly impacted health and economic conditions throughout the United States. The COVID-19 pandemic could have a material impact on the Foundation's net assets if the restrictions remain in place for an extended period.

(2) Fair Value Measurements

The Foundation's assets are invested in a variety of investments. Investment securities, in general, are exposed to various risks, such as interest rate, credit, and overall market volatility risks. Due to the level or risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statements of financial position.

The Foundation may invest in securities with contractual cash flows, which may include asset-backed securities, collateralized mortgage obligations, and commercial mortgage-backed securities. The value, liquidity, and related income of these securities are sensitive to changes in economic conditions, including real estate value, delinquencies, or defaults, or both, and may be adversely affected by shifts in the market's perception of the issuers and changes in interest rates.

Notes to Financial Statements

June 30, 2020 and 2019

The methodologies used to determine the fair values of assets and liabilities under the "exit price" notion reflect market participant objectives and are based on the application of the fair value hierarchy that prioritizes observable market inputs over unobservable inputs. The hierarchy is based on the reliability of inputs as follows:

- Level 1 Valuation is based upon quoted prices for identical assets and liabilities in active markets. The Foundation does not adjust the quoted price for Level 1 securities.
- Level 2 Valuation is based upon quoted prices for similar instruments in active markets, quoted prices for identical or similar instruments in markets that are not active, and independent pricing models or other model-based valuation techniques such as the present value of future cash flows, adjusted for the security's credit rating, prepayment assumptions, and other factors such as credit loss assumptions for which all significant assumptions are observable in the market.
- Level 3 Valuations derived from valuation techniques in which one or more significant inputs or significant value drivers are unobservable.

The investment categories above reflect the fair value of the investments. For each of the categories described above, the fair value of the investments has been determined by obtaining either quoted market prices of the security or quoted market prices of similar, comparable securities.

- (a) This category includes investments held by the annuity and CRUT portfolios. These investments are in domestic corporate stock.
- (b) This category includes investments in government securities.
- (c) This category includes investments in corporate bonds obtained on domestic exchanges.
- (d) This category includes investments in domestic corporate stock.
- (e) This category includes investments in pooled domestic corporate bonds managed by a commercial brokerage company.
- (f) This category includes investments in mortgage-backed securities.
- (g) This category includes investments in mutual funds that hold diversified portfolios of high yield, international and emerging bonds along with other fixed income investments.
- (h) This category includes investments in an open-end real estate trust fund and are valued based upon their closing net asset value (NAV) as a readily determinable fair value, which is the current fair value of the trust fund's underlying assets per unit.

During the year, there were no transfers between Level 1 and Level 2 investments.

(3) Other Assets

Other assets consist primarily of the cash surrender value on whole life insurance policies.

	\$ 27,556,646	27,044,408

(5) Endowments and Gifts

The Foundation's endowments and gifts consist of approximately 413 individual funds established for a variety of purposes. Net assets associated with endowment and gift funds are classified and reported based on the existence or absence of donor-imposed restrictions.

All funds are governed by an agreement between the Foundation and the donor. The definition of principal is the total amount of all contributions (historical dollar value). The agreement specifies whether the funds are to be held in a permanently restricted endowment or as a gift with purpose restrictions.

With the exception of annuity and charitable remainder trust funds, all of the Foundation's endowment and gift assets are pooled for investment purposes. The Foundation has adopted an investment policy for its pooled investments that attempts to provide a source of income to support each beneficiary and provide growth through income and capital appreciation. The Foundation uses a diversified asset allocation to

Notes to Financial Statements

June 30, 2020 and 2019

achieve its long-term return objectives within prudent risk constraints. All investment activity is distributed to each fund maintained in the investment pool based upon the proportion of the total invested.

The Foundation has a formal distribution policy, which considers various factors, including but not limited to, any specific direction from the donor; the duration and preservation of the endowment; expected total return from the income and appreciation of investments; and the protection of the purchasing power of the endowment. Distributions are determined on an annual basis by the board of trustees. The distribution goal shall be a consistent distribution of 3.5% of the fair market value of the endowment as of the beginning of the previous calendar year. In certain circumstances, the board of trustees has authorized spending from endowment funds that have a fair value less than the historical gift value. In all cases, authorized spending amounts are utilized in accordance with donor-imposed restrictions on the use of income earned by the endowment funds. The beneficiary has the option to accept the distribution. When beneficiaries decline the distribution, the income remains invested.

Changes in endowment net assets for the fiscal years ended June 30, 2020 and 2019 consisted of the following:

	 2020	2019
Endowment net assets, beginning of year	\$ 27,044,408	24,902,589
Contributions and other deposits	796,153	1,201,596
Investment return	889,676	1,948,326
Appropriated for expenditure	(1,208,197)	(1,018,781)
Change in value on CRUTs and cash surrender		
value on whole life insurance policies	 34,606	10,678
Endowment net assets, end of year	\$ 27,556,646	27,044,408

(6) Underwater Endowment Funds

From time to time, the fair value of assets associated with individual donor-restricted endowments funds may fall below the level that the donor requires. Deficiencies of this nature are classified in net assets with donor restrictions and are included in the accumulated investment gains (losses) in the table below. Deficiencies of this nature were \$22,989 and zero at June 30, 2020 and 2019, respectively.

The deficiencies arise from unfavorable market fluctuations that occurs after the donor-restricted contributions. Annual distributions are made available per Board determination based upon Uniform Prudent Management of Institutional Funds Act (UPMIFA) guidelines and donor original gift stipulations.
