The death and resurrection of Jesus Christ is an event that draws all of creation toward God. When we take part in the devotion of the Stations of the Cross, traditionally we say, "Because by Your holy cross You have redeemed the world." That means more than just the people of this world; it means all of creation.

As good stewards, we are called to attest to the glory of God in all He has created. Everywhere we look we can see evidence of His handiwork and have the opportunity to reflect on how He has created the world for our benefit. Seeing all of creation as redeemed because of the dying and rising of Christ helps us with this reflection. Truly, all things are made new.

With only two weeks left in Lent, we still have a chance to echo the words of this Sunday's psalm, "Create a clean heart in me,

O God." Perhaps we are unable to see the glory of God in creation because of our own sin. We need to repent and return to God, and then we can see with new eyes. Make this Easter a time for real, meaningful celebration as all of creation sings to the Lord.

The science room is exploding with LIFE!

4th and 5th graders persuaded Mr. Nagel to start a saltwater tank. Here we are adding our first fish, a clownfish! Wish us good luck on this endeavor!

EGG INCUBATION HAS BEGUN!

Here is our collection of incubators. We are doing some experimenting to decide if they still work or not. The incubator in the middle is working great- Tony made it and is letting us use it to hatch some button quail!

We are incubating chicken eggs, red golden pheasant eggs, and button quail eggs. Oh- and a lone turkey egg. So far we have

seen embryo development in most of the pheasant eggs and a few of the chicken eggs. Check back in a few weeks to see if we have a successful hatch!

Part of our animal collection includes button quail- the world's smallest quail! Wait until you see how cute their babies are in a couple of weeks!

Right: Frederick the hamster. (He is cute but stinky.)

The ND game and fish dept provided us with some native Missouri River fish. Check out our self-cloning

crawfish. She has recently laid e g g s w h i c h s h o u l d h a t c h s h o r t l y ! (at right)
