SCHOOL

Kindergarten is the place to be! Each morning, our kindergartners enter the classroom, excited about what they are going to learn through small group, and one-on-one instruction. During circle time and centers, we are learning about letter recognition and writing, word families, sight words, phonics, and writing. In math, we have been learning about alligator math with greater than, less than, or equal to, and in religion, our focus this month is on the saints. Our students enjoys the

classes that St. Ambrose offers: PE, music, art and Spanish. A favorite of everyone is Fun Friday, and the big focus on Friday is to learn through hands-on science experiments. Oftentimes, our class is coming up with a list of materials for our experiments, looking and listing our steps for our

experiments, and forming hypotheses beforehand. Whether we're making a volcano or learning how water travels through the leaves, we are always learning something new in kindergarten.

They also help the elderly and families with small children find seats, take up the collection, and wish us well as we leave Mass. As an usher, you select to service the Mass you ordinarily attend. If you are interested, please stop an usher after Mass.
