28th Sunday in Ordinary Time

"... one of them, realizing he had been healed, returned, glorifying God in a loud voice; and he fell at the feet of Jesus and thanked him. . . Jesus said in reply, 'Ten were cleansed, were they not? Where are the other nine?' "

- Luke 17: 15-17

St Joseph's first Encounter is this Tuesday, October 15th!!

See inside for an invitation to this evening with Jesus!

From the Pastor's Desk

The central theme of today's readings is gratitude – in particular, the expression of gratitude God expects from us. There are many different definitions of sin but my favorite is that sin is simply "ingratitude". Despite the crosses in our lives, we all have blessings we can be grateful for. At the beginning of every Eucharistic Prayer at Mass, the priest says, "Let us give thanks to the Lord our God," to which we respond, "It is right and just". How true it is that it is right and just to give thanks to God. Are we people of gratitude? How often do we say thank you to God and to others? We all have many blessings from God, including the greatest blessing of all, Jesus' dying on the cross and rising for us. What is our response to this kind of love?

-Peace, Fr. Russell Kovash

STRIVE: A 21 -Day Detox from Porn, is an online video series written and hosted by Matt Fradd. STRIVE is for men who wish to break free from a porn addiction. Participants sign up at strive21.com to receive ac-

cess to daily videos in which Fradd takes viewers on a step-by-step process of ridding their lives of pornography. He draws on his eight years of experience combating porn. He explains through the following, *"I know what works, and what doesn't. I can help viewers begin down the path to lasting success. Over the past eight years, I've spoken to as many as a million people on the topic. Everywhere I go it is a huge issue with the majority of people I encounter. The problem is exacerbated by the fact that we all carry around with us a potential portable, X-rated movie theater that can also be used to make phone calls. ... I'm also hearing about an increasing number of young women addicted to porn, as well as children who at ages 8 to 12 are first getting exposed to it, and then going on to be regular consumers. Over the past 40 years there have been studies conducted by different branches of science on porn's sociological, psychological and neurological effects on viewers. It was previously thought that for something to be addictive, it had to be a substance that you put into your body. But we know from the DSM-5 {{Diagnostic and Statistical Manual of Mental Disorders, fifth edition}} that one of the five categories of addiction is natural addiction like pathological gambling. Such behaviors can produce the same effect in the brain as a substance like alcohol. Pornography elicits powerful neurotransmitters, called dopamine, in the brain that can lead to us getting addicted. Our brain gets over stimulated, and its reward center becomes numbed. In this state of atrophy, our brain craves dopamine, which drives us to more pornography. But as our brain keeps craving dopamine, it craves a harder drug, by which I mean porn, which features deviant sexual behavior and unnatural fetishes. The viewer suffers in a variety of ways, such as from anxiety, depression, isolation and marital breakdown. It can also affect us physically, making it more difficult for us to engage in and enjoy sexual relations with another person....The first step is to expose it to the antiseptic life of truth. Bring your problem to a trusted friend to whom you can be accountable. Second, if you're a Catholic, you can repent and go to the Sacrament of Confession and receive the graces that God offers. I would also recommend Catholics get the support of a good spiritual director... I'd remind people that patient perseverance is necessary. The wounds didn't occur overnight, and they're not going to vanish overnight..."* Join Matt Fradd in the fight against porn and register free for STRIVE!
