

**Diocese of Superior**  
**Charter Safe Environment Parent Statement of Completion**

Parents:

The Bishops' *Charter for the Protection of Children and Young People* has directed us to provide training to our children and youth (including those who have been opted out or absent) to help them grow in their understanding of their own sacredness, the sacredness of others, boundaries, and how to seek help through their relationships with trusted adults. The *Circle of Grace* curriculum is one aspect of how the Catholic Church is working to provide a safe and sacred environment for our children and influence our communities to do the same. Compliance with this training requirement is audited each year at the diocesan and parish level. More importantly, we wish to teach our youth about theirs and other's dignity, and that they are worthy of respect and protection.

The Diocese of Superior is asking if you provide this lesson within your home, please complete the lesson, provide the information requested below, and return a signed copy of this document to your parish religious education leader by the due date they have established. This would allow us to indicate that your child/children has/have received safe environment training. Questions should be directed to your parish.

Thank you!
