

Annual Parent/Teacher Asbestos Notification

To: Parents and Staff of Sacred Heart Catholic School

Date: August 8, 2025

Sacred Heart Catholic School has an **Asbestos Management Plan** in place, prepared in compliance with the **U.S. Environmental Protection Agency's Asbestos Hazard Emergency Response Act (AHERA)**. This plan, along with any updates, is available for inspection in the School's Main Office, Monday through Friday during regular school hours.

Each year, periodic surveillance inspections are conducted to ensure that asbestos-containing materials (ACM) in the school remain in good condition. Accredited inspectors not only evaluate the condition of these materials but also review our operations and maintenance procedures to ensure continued safety and compliance.

If you have any questions, please contact:

Mr. Thad Kolaroff

Director of Buildings and Grounds, Sacred Heart Catholic School
