Global Climate Change

What is the science in relation to global climate change?

What are the impacts and more importantly, solutions?

What is the response of people of faith to the challenge?

On the 3rd Anniversary of the publication, *Laudato Si*, (On Care for Our Common Home) Pope Francis urges us to take action.

Alan Anderson is a graduate from Oregon State Univ., with a BS degree in Wildlife Science and Mgmt. He co-owned a small business in St. Cloud and served in the Army National Guard for 6 years. In Oct. 2012, Alan and his wife Deb attended the Nobel conf. at Gustavus Adolphus College on the health of our oceans, with some of the top scientists in the field making presentations. This inspired Alan to take a course from MIT on the Science of Climate Change and begin giving public education talks on the subject. He and his wife, Debbie, have been married 44 yrs, and have two grown kids, and four little grandchildren, who focus his concern about the health of the planet we will leave to them. **citizensclimatelobby.org**

Sister Patricia Keefe, OSF, received a Master's degree in Theology from Fordham University, New York City and a J.D. from the University of Minnesota Law School, St. Paul. Patricia practiced law on behalf of poor persons in Minneapolis and Mankato. In 1985-6, she worked in the Legal office of Amnesty International in London before serving as Director for Justice and Human Development for the Archdiocese of Oklahoma City. After serving in Community Administration, she worked as the initial staff person for the Nonviolent Peaceforce in the Twin Cities. Before moving to Assisi Heights, she was on the staff of ARC Retreat Center near Cambridge, MN. **catholicclimatemovement.global**

All are Welcome!
