“Blessed be the God and Father of our Lord Jesus Christ, who has blessed us in Christ with every spiritual blessing in the heavens, as God chose us in Christ ...to be holy and without blemish before God.” What God desires for us is truly ennobling but also embarrassing!

God breathes the breath of life into each and every one of us. God gifts us with the gift of life and does so with the desire that we will live in and with God now and forever. What a great grace and blessing for us! We live in and with God when we are faithful to God – faithful to God in prayer, faithful to God in allowing the teaching of God to shape all that we think, say and do, faithful in allowing God to use us as the instruments through whom God becomes present in our world once more. When we serve as instruments through whom God is present in our world through us, then we are also living in and with God in our relationships with other persons. We know that God wants us to be open to all in love, to be persons who seek forgiveness and reconciliation, persons who have a deep concern for the poor, the neglected, the forgotten. When we live in faithfulness to God, we are holy – a reflection of God to the world and our lives are without blemish. What a marvelous dignity we can have as sons and daughters of God!

The embarrassment comes when I recognize how unfaithful I have been to God. How many times have I neglected God through a lack of attention to prayer? How often have I neglected God in not allowing the teaching of God to shape who I am, how I live? How often have I neglected God in failing to be an instrument of God’s presence in the world through my failure to be a person of rich compassion, a person who welcomes all, a person who offers forgiveness and reconciliation to all? How often have I failed to be a person who has a profound concern for the poor and the forgotten? Great is the dignity that I am offered, but too often I refuse that dignity by a failure to live in faithfulness to God.

Let us pray today that we will embrace the wonderful dignity that God offers us!

Fr. Mark Hallinan, S.J.

LAUDATO SI – AN ENCYCLICAL THAT CHALLENGES US:

A scientific consensus says climate change is real and is caused at least in part by human activity

A very solid scientific consensus indicates that we are presently witnessing a disturbing warming of the climatic system. In recent decades this warming has been accompanied by a constant rise in the sea level and, it would appear, by an increase of extreme weather events, even if a scientifically determinable cause cannot be assigned to each particular phenomenon.

Humanity is called to recognize the need for changes of lifestyle, production and consumption, in order to combat this warming or at least the human causes which produce or aggravate it. It is true that there are other factors (such as volcanic activity, variations in the earth's orbit and axis, the solar cycle), yet a number of scientific studies indicate that most global warming in recent decades is due to the great concentration of greenhouse gases (carbon dioxide, methane, nitrogen oxides and others) released mainly as a result of human activity. (23)

The poor are hurt the most by climate change

Many of the poor live in areas particularly affected by phenomena related to warming, and their means of subsistence are largely dependent on natural reserves and ecosystemic services such as agriculture, fishing and forestry. They have no other financial activities or resources which can enable them to adapt to climate change or to face natural disasters, and their access to social services and protection is very limited. [...]

There has been a tragic rise in the number of migrants seeking to flee from the growing poverty caused by environmental degradation. They are not recognized by international conventions as refugees; they bear the loss of the lives they have left behind, without enjoying any legal protection whatsoever. Sadly, there is widespread indifference to such suffering, which is even now taking place throughout our world. (25)

How can I show greater respect for the environment? Do I recycle? Do I use water and electricity responsibly? Do I keep my street clean? Do I include the environment in my life of faith? Do I pray regularly for a greater respect for the environment? Do I pray for a change in my heart and in the hearts of the rich that we might work together to respond to the needs of the poor?

We pray:

Creator of the universe, we pray in gratitude and praise. You were there at the beginning of all things, shaping our world and preparing it for us. You have provided the mountains and the trees, the waters and the earth.

Help us to be caretakers of your gifts, protecting the land from abuse, and ready to share with all in need. Show us how to use our science and technology in creative, not destructive ways. Deepen our awareness of our connectedness with all your creation, so that future generations will also enjoy every blessing. Amen. Michael Gormly SSC
