

Natural Family Planning Resources Diocese of Victoria

Nearby Training:

We have 3 NFP practitioners in our diocese who are able to meet with couples and individuals for classes and consultations. All 3 use The Creighton Model FertilityCare System featuring NaPro TECHNOLOGY™, which is a system designed for women to learn how to monitor, maintain and evaluate their procreative and gynecologic health for their entire reproductive life based on observations of their own biological markers. It is natural, cost-effective, and approved by the church.
