Statement regarding photo circulated from Pro-Life Wisconsin event

On Friday evening, October 23rd, a photo including Bishop Hying of Madison was circulated on social media, and since has been shared on regional news sites. The following is the diocese's brief statement regarding this event and any photo including the bishop:

“Bishop Hying was asked to speak at an invitation-only Pro-Life Wisconsin ‘Love for Life’ event, hosted in a church. He had no part in the logistics or planning of the event, but was glad to speak for the cause of life. He personally wore a mask and maintained social distance in so far as it was possible, only removing his mask to speak. Immediately after speaking, he was asked to take pictures.”
