Church Parking Lot Update

With the approach of Spring, we have been meeting to finalize plans for improving the safety of our Church parking lot. There are a number of things that must be done before we pave the area. New concrete sidewalks will replace the old ones around the side and front of the Church and near the Rectory. Also, new concrete curbs will be installed around the property. New catch basins will be installed to address the drainage problems along the road on the side of the Rectory. Removal of the shed will also begin. We will level the knoll in front of the Rectory lawn to ensure safer passage of vehicles on North Avenue. The small statue of St. Joseph will be placed in a new shrine when we landscape the area. New parking spaces will be added on the side of the front lawn of the Rectory. The area on the left side of the Parish Hall will be paved as a "driveway" to access the side door leading to the Hall kitchen. This plan will necessitate the removal of trees and shrubs on our property to ensure better visibility, traffic flow and to provide proper drainage. Please know that when we are finished we will landscape the property to make sure that it is not only safe but beautiful. All of these improvements will help to make our parking areas safer for our parishioners and to allow access for emergency vehicles during Mass times. You have all been remarkably patient and considerate during past construction projects, I hope and pray that you will continue to be so as we begin this much needed and requested endeavor.

A note of thanks to Skip Ciferri for his guidance, suggestions and generous offer to oversee the project. Thank you all.
